PROSPECTUS: CALL FOR INTERESTED PROPERTY OWNERS

Things to consider before applying:

- This is a public/private partnership project, meaning COCA and the CRA will work with private property owners to abate or prevent graffiti tagging by creating a public piece of artwork.
- Property owners must be comfortable with the idea of people visiting the site after mural completion, as visitors and residents often use creative murals for photo opportunities and social media posts.
- Property owner must have a willingness to collaborate with both COCA and a local mural artist. Mural designs will be decided on between these three parties, but muralists will be given a level of creative freedom with their artwork.

COCA Guidelines and Criteria:

- City policy prohibits exhibiting artwork with nudity or religious imagery. COCA reserves the right to reject or request revisions on designs that do not meet standards of quality and public safety, or are inappropriate for the public, as deemed so by the Art in Public Places Director.
- All murals will be finished with a UV top coat and anti-graffiti top coat
- Selected property owners must commit to keeping the mural up for a minimum of 24 months after completion.
